

Siamak Arya Consulting is offering over twenty-five years of experience in system and processor architecture and design, simulation and modeling, and performance analysis to consult in the following patent areas.

Expert witness, claim construction, general investigation, patent evaluation, ...

Areas of expertise include:

- **Processors**
 - Architecture, micro-architecture, instruction set, data path, simulators, performance analysis, etc.
 - Strategies, Structures, Policies: Cache, Pipeline, Instruction issue, etc.
 - General and special purpose processors.
 - VLIW, Superscalar, Vector, SIMD
- **Systems**
 - Architecture, multi and parallel processing, memory system, etc.
- **System Performance analysis**
 - Metrics and workload specification and development
 - Performance analysis for system, system components, or application improvement
 - Algorithm and application analysis and performance improvement and projection
 - Bandwidth and throughput analysis and projection
- **Applications areas**
 - Scientific and number crunching, consumer, video, and DSP.

I hold nine US patents and have a number of publications. List of patents, publications, and references are available upon request.

Please contact me if I can be of any help to you or your company. Referrals are appreciated.
